WE ARE HIRING

Salaried GP required to join our supportive and innovative team in the heart of Oadby

Here at **The Central Surgery Oadby** we value innovation, team working, excellent patient care and a healthy work-life balance. We are a teaching, training and research practice and care for approximately 9000 patients. We are active members of the Oadby and Wigston PCN.

Our team consists of GPs, minor illness ANPs, an ANP specialising in care home/frail and EOL patients, a Practice pharmacist, Practice Nursing/HCA/Phlebotomy team and a strong management, administrative and reception team, as well as a strong and diverse allied health professional team via the PCN.

We are at the forefront of streamlining workload and improving patient care and have been recognised nationally for the work we have undertaken with NHSE regarding this.

We use the AskmyGP online platform, Accurx & SystemOne

We were recently rated Good on our latest CQC inspection in March 2022.
