

YOUR CENTRAL SURGERY MONTHLY

JULY 2023

5th July 2023 - 75 Years of our NHS!

Treating over a million people a day in England, the NHS touches all of our lives. The NHS was born from hope. It was founded on the simple principle of providing universal care, based on people's need, not their ability to pay. Today, this resonates as strongly as it did in 1948. In opinion polls, 19 out of 20 people say they want the NHS to remain free at the point of delivery.

As we mark 75 years of the NHS, we are looking back on our achievements, as well as looking ahead to the opportunities we have to shape the next 75.

Central Surgery is proud to represent the NHS as you GP Practice!

Rememebr to use AccuRx for all of your admin queries:

NHS East Midlands Gambling Harms Service

We offer specialist treatment and support to people struggling with problem gambling across Derbyshire, Leicestershire, Lincolnshire, Northamptonshire, Nottinghamshire and Rutland.

We are a clinical team made up of psychologists, therapists, mental health practitioners and psychiatrists. Within our team we also have 'experts by experience' - people who have recovered from a gambling addiction themselves.

We are based in Derby but offer support to people across the East Midlands. Most of our support is provided through virtual treatment programmes but face-to-face support may be an option where it is considered more appropriate.

We offer additional help with specific problems experienced by individuals, and support and advice to family members and carers. We work alongside many other agencies and services that can help with problems such as mental health, debt management and housing.

CAMPAIGN OF THE MONTH

South Asian Heritage Month

Aims to raise the profile and contribution of British South Asian history in the UK.

South Asian Heritage Month (SAHM) first took place in 2018 and runs from the 18th of July to the 17th of August each year. SAHM seeks to commemorate, mark and celebrate South Asian cultures, histories, and communities.
